Our range of rise and recline chairs

Now available with deluxe pocket sprung seat cushion
Ask for details

Standard features on all our chairs:

- A range of rise and recline options to suit your needs
- High quality, medium or firm seat foam to ensure a lifetime of support
- Side pocket and handset loop on right hand side
- Castors on chairs designed for under 25 stones
- Glides on chairs designed for 25 stones and above.

Gold Service - Let us make your chair to measure!

For comfort without compromise we tailor your chair specifically for your height and size. You will never experience more support and comfort from a chair until you have your chair hand made to your specifications. And it is not as expensive as you may think, ask your stockist for details.

Upgrade your warranty with Five Year Protection for your chair

For your peace of mind we also offer warranty packages to protect your chair for five years from delivery. Upgrade your chair purchase with:

- A Comprehensive Fabric Warranty, which includes a protective fabric treatment before delivery, a pack of specialist cleaning materials and warranty cover for wear and accidental damage to the fabric for five years.
- Standard Furniture Protection Warranty, which covers your chair frame, foam, electrics and mechanism for five years.

- Back and head support in one carefully upholstered cushion.

Westbury Fireside

- Full head support from a soft, wide cushion
- Split back cushion for posture and lumbar support
- Cushion filling can be adjusted for personal comfort
- Tailored, fully upholstered scroll arm.

Beautiful chairs, stunning fabrics

We offer an extensive range of fabrics from beautiful upholstery fabrics through to leather, vinyl or our new Endurance Range of hard wearing performance fabrics.

We also provide healthcare grade materials for easy care and infection control: washable, wipe cleanable, Crib 5 and fabrics with special properties such as Anti Bacterial, Anti MRSA, Anti-Microbial, Anti-Fungal and breathable.

If you find a fabric you really like, remember we can also manufacture chairs and sofas in matching fabrics to complete your room.

Upgrade your chair

We can offer you a wide range of seat cushion options to meet your needs, all designed with Reflexions foam and specialist materials to combat problems associated with sitting for long periods, please ask for details.

Our rise and recline mechanisms

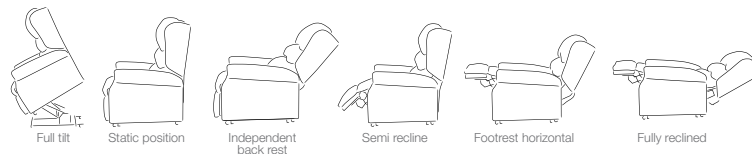

We can fit a wide variety of mechanisms into your chair, it depends on what movement you require and size of the chair. The two options below give you an idea of the features available. Your stockist will help you choose the right mechanism for your needs.

Single Motor – Tilt in Space

The single motor mechanism means that the back reclines at the same time as the footrest rises. The tilt in space means that a constant back angle of 90° is maintained at all times through the movement.

Dual Motor – Tilt in Space

Two motors mean the backrest and the footrest can be operated separately. The Tilt in Space mechanism also allows the two to work together maintaining the comfortable 90° angle throughout the reclining movement.

For more information and to watch film clips showing these movements and the other rise and recliner mechanisms we can fit into your chair go to www.reposefurniture.co.uk

Complementary furniture

We offer a range of complementary furniture to match our popular rise and recliner chairs. The range includes single static chairs, two seater sofas and three seater sofas.

We can also make a footstool to match your suite.

Models available: Marbella, Mayfair, Rimini Classic, Rimini Deluxe, Westbury and York.

Accessories

All our chairs and sofas can be accessorised with head, seat, arm and full arm covers for these high wear areas.

Our Rimini range can also be manufactured with removable covers for your convenience.

We can also add a head roll to your chair for additional comfort.

Please ask your stockist to add your choice of accessories to your order.

Head roll

Heat and massage systems

We offer both heat only and heat and massage systems fitted into your chair.

Our heat and massage system is from Relaxor and we believe it to be the best on the market. Massage pads are built into the back, seat and foot rest to massage upper back, lower back, upper and lower thighs and calves. You can set the intensity and speed of each of the pairs of pads using the handset.

A heat pad is placed in the bottom lumber of the back cushion giving a completely relaxing experience, exactly what is needed at the end of the day or to help recuperation.

Our heat only system comes with two heat modules: one is fitted into the seat area of the chair; and the other comes as a loose cushion heat pad that you can position for your own comfort... behind your back, on your lap or to the side.

The heat pad offers real flexibility as it can be unplugged and stored with the handset in the chair side pocket when not in use. This system can be run for as little as 1p a day to provide an extra source of heat in your daily living.

Home to hospital

If you need your chair to do a little more, our healthcare range provides additional care features to make your life easier and more comfortable.

We have an extensive range of healthcare chairs available, please see our website www.reposefurniture.co.uk or contact us for a brochure.

Specialist cushion comfort

Working closely with the healthcare sector we have designed a wide range of specialist seat cushion options, utilising leading materials and innovative construction techniques to deliver the best support we can for pressure management.

COMFORT WITHOUT COMPROMISE

Who are Repose?

Repose is a family run business with over 100 years of combined experience in manufacturing specialist seating, rise and recline chairs and complementary furniture.

We have developed a particular expertise in chair design and rise and recline mechanisms and are constantly innovating to bring you the very best fit and comfort in your chair. All our models, from the traditional to the contemporary, are British made by fully trained craftsmen. All our team from upholsterers to delivery drivers are committed to ensuring we deliver quality every time, which is why we have the reputation we are so proud of.

Why buy from Repose?

All of our chairs are manufactured in a single factory base in the UK. This ensures you receive the highest standards, as we quality check and control every process and every chair through our business.

We take time to research and identify the best suppliers, especially of the mechanical and electrical components of our chairs. There is a two year warranty on all electrical parts to give you real peace of mind. We want you to be confident that you are investing in a chair that will give you years of satisfaction and comfort.

What size chair do I need?

All our chairs are available in sizes to fit everyone. We are a bespoke manufacturing company and believe in 'why try and fit in a chair, when a chair can be made to fit you'. This is what we mean about comfort without compromise. Our chairs are handmade to your individual requirements.

How do I buy a Repose chair?

Furniture retailers and mobility shops across the UK and Ireland stock our furniture. The teams in these shops can demonstrate our chairs, take measurements to accurately fit your chair and give you advice at every stage of your purchase. Contact us for details of your nearest stockist.

How long will it take to get my chair?

When we receive the order from your stockist, we will manufacture and deliver your chair within 2-3 weeks. Some specialist chairs can take 3-4 weeks, but you will be advised when you make your purchase. These chairs are specifically made for you, if there is an immediate requirement please mention this to your stockist at time of order and we will endeavour to try and improve on the delivery time for you.

Guarantees

All Repose chairs come with:

- Two year electrical warranty on rise and recliner mechanisms
- One year warranty on upholstery and frames*.

* Full terms and conditions are available on request.
